

# eduroam for Windows 8

eduroam settings for Windows 8.

## Pre-requisites

- Must be a participating institution in the eduroam initiative project
- Turn on wireless card device.

1) Go to **Search Apps>Control Panel>Network and Sharing Center>Set up a new connection or network>Manually connect to a wireless network** and click **Next** button

2) Supply the information as below and then click **Next** button:-

Network name: **eduroam** (case-sensitive)

Security type: **WPA2-Enterprise**

Encryption type: **AES**

Start this connection automatically: **unchecked**

Connect even if the network is not broadcasting : **Check**

The screenshot shows a Windows dialog box titled "Manually connect to a wireless network". The main heading is "Enter information for the wireless network you want to add". The form contains the following fields and options:

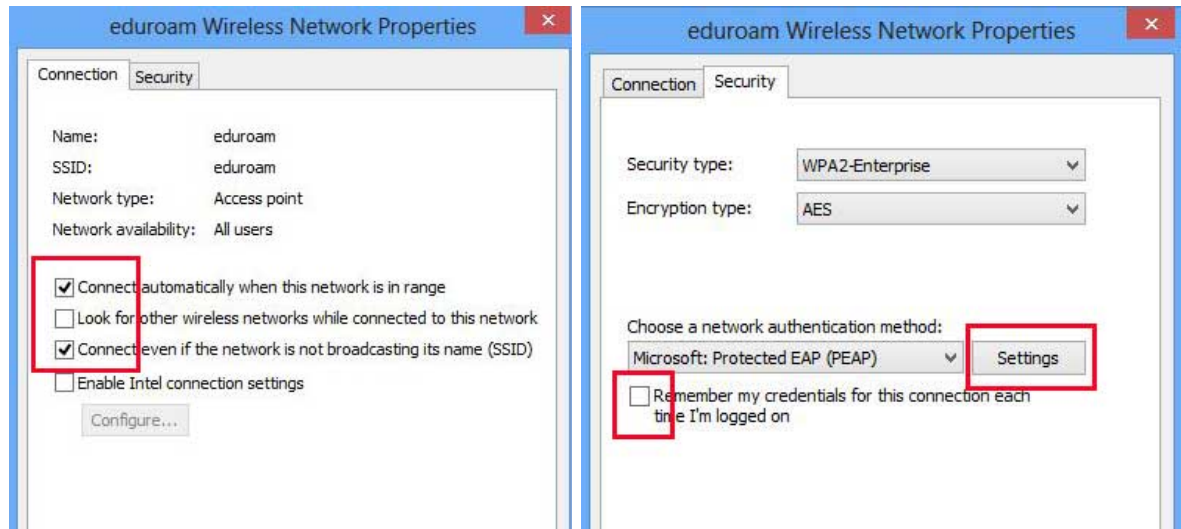

- Network name:
- Security type:
- Encryption type:
- Security Key:   Hide characters
- Start this connection automatically
- Connect even if the network is not broadcasting

Below the "Connect even if the network is not broadcasting" option, there is a warning: "Warning: If you select this option, your computer's privacy might be at risk." At the bottom right, there are two buttons: "Next" and "Cancel".

3) Click **Change connection settings** button

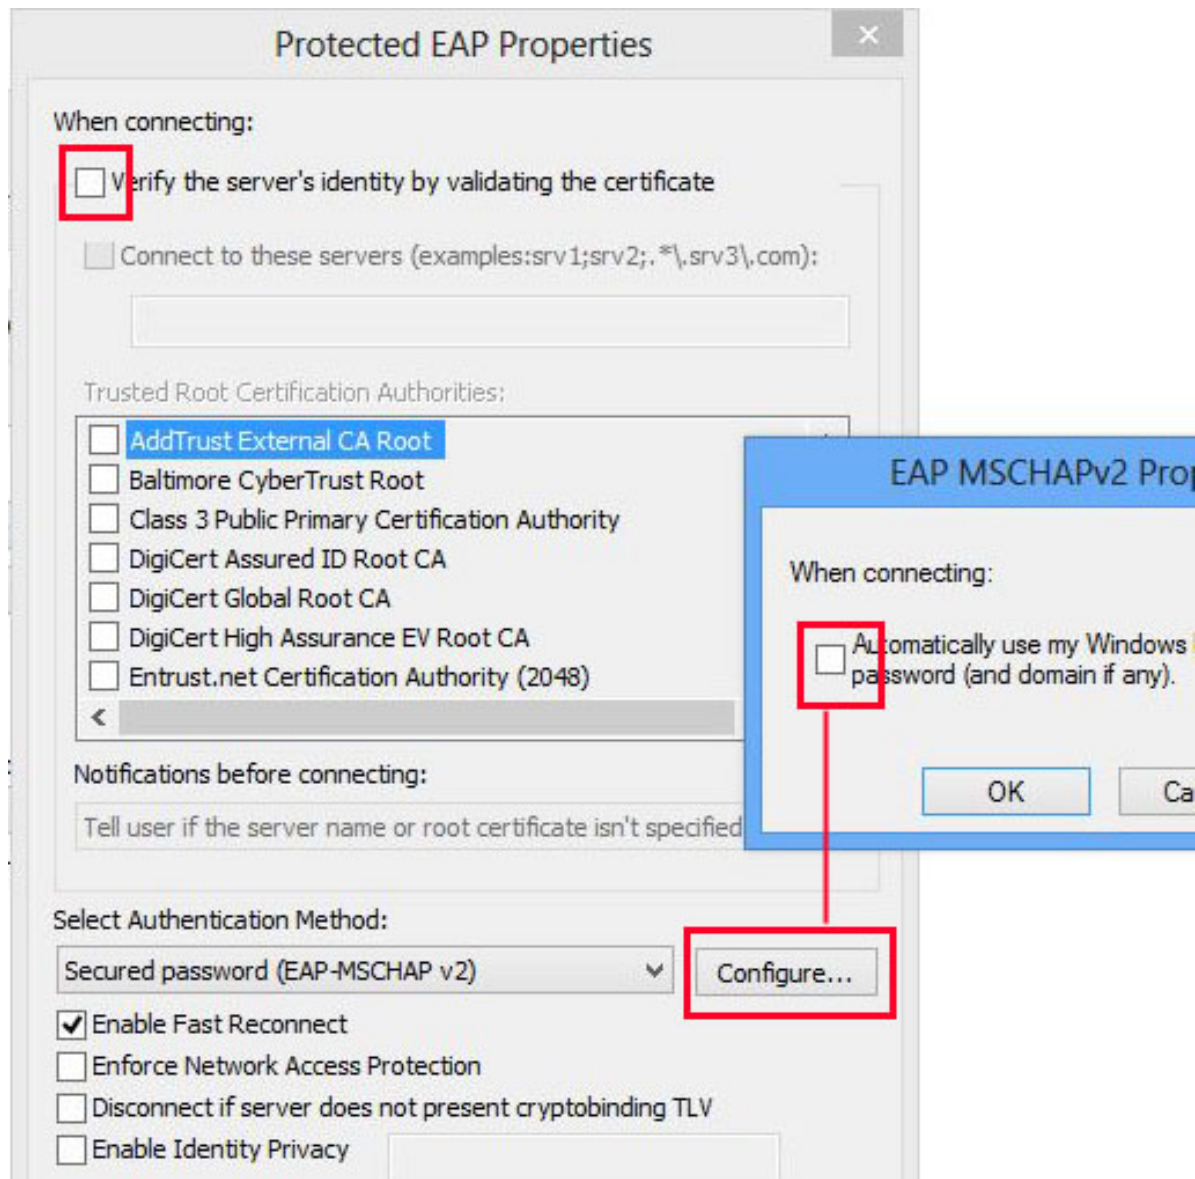

4) Under **Connection** tab, tick the **check** boxes

5) Under Security tab, uncheck Remember my credentials for this connection and click Settings button

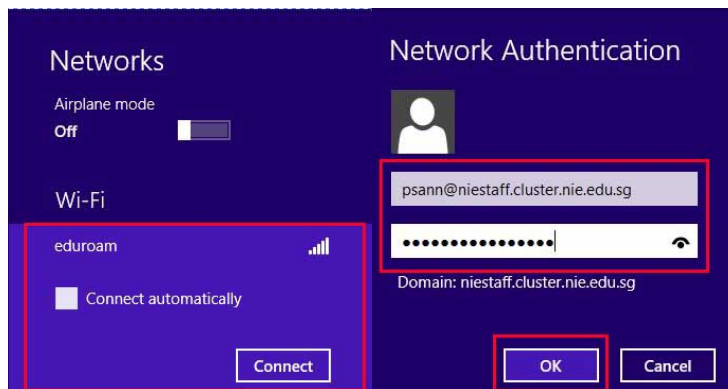

6) Uncheck the box Verify the server's identity by validating the certificate

7) Click **Configure..** button and uncheck the box **Automatically use my Windows logon name and password (and domain if any)**.  
Click **OK** buttons to close all settings.

8) Go to **Settings>Available** and select **eduroam** and click **Connect** button. Input the full path under username and your password and click **OK** button
