

iSurf@NIE for Macintosh OSX Leopard

iSurf@NIE settings for Mac OS X Leopard.

Pre-requisites

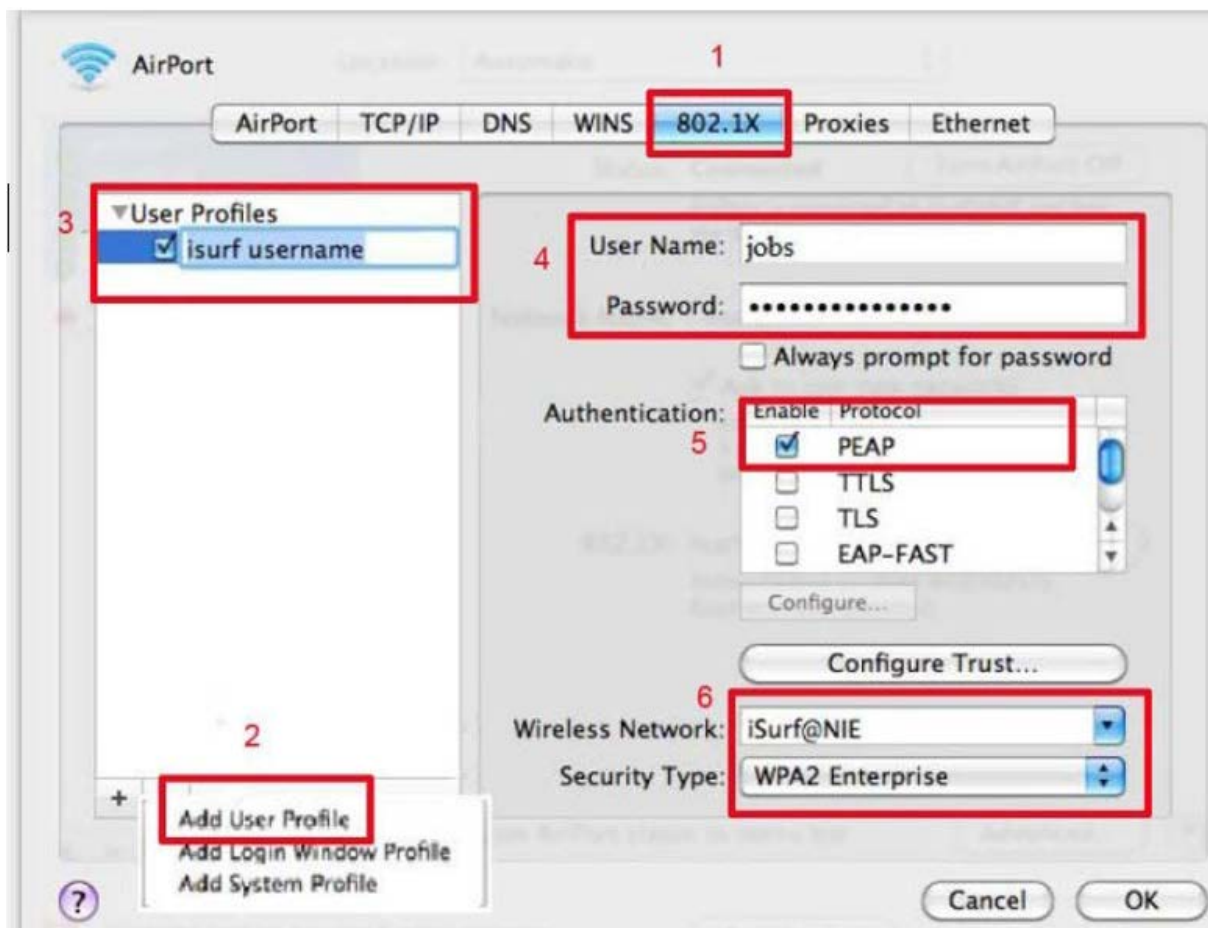

- Turn on Wireless connection.
- Once the following steps are done, it will automatically connect to NIE Wireless network when the Wi-Fi on your notebook is switched on. You might be prompted to re-enter the password if you have changed it.

1) Click and Select “Open Network Preferences” at top right corner (Wi-Fi icon). Then, click “Turn AirPort On” (1) and click “Advanced” (2).

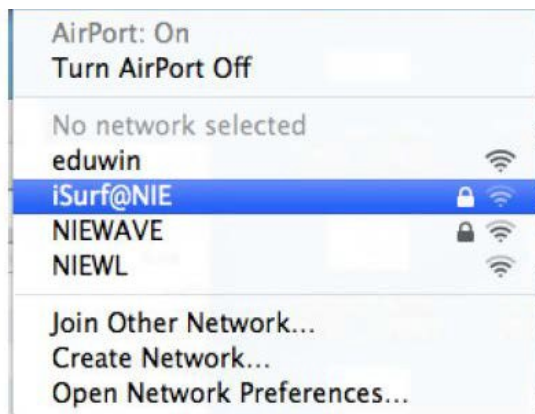

2) Select the "802.1X (1)" tab. At the + select "Add User Profile (2)"

- Key in any name for the User Profiles(3)
- Input your user and password (4)
 - a. For NIE staff , use outlook email login
 - b. For NIE students, use NIE portal login
- Authentication: choose "PEAP" only. Unchecked others.
- Wireless Network: Choose "iSurf@NIE"(6)
- Security Type: choose "WPA2 Enterprise"(6)
- Click "OK" and click "Apply".

3) Connect to iSurf@NIE network by selecting iSurf@NIE

4) After selecting iSurf@NIE,

- Select "user profiles" which was created earlier at the 802.1X option.
- Click "Remember this network" if you want to get auto connected to iSurf@NIE.

5) Click "Continue" at Verify Certificate.
